Subject: Press / Information request regarding URI BRODSKY

Dear Prosecuroor Lewandowska,

I am an independent journalist based in Vienna. I have been referred to your office by Ms. Małgorzata Woźnia, the Spokesperson of the Ministry of the Interior and Administration of the Republic of Poland

In relation to the individual captured by your authorities and the legal procedures involved, I respectfully request the following information:

- Which is the nationality of the individual? According to media in Israel, it is not clear if he holds Israeli or German documents, or both, or other.
- In which ways have israeli representatives attempted to alter the due course of legal procedures in this affair? Have any attempts to suborn Polish officials become known, or threats been implied or proffered against your country or specific persons? By whom?
- On which (legal) basis are the israeli representatives meddling in the due process under Polish law in this case?
- It has also become known that US representatives are meddling in this case. On which (legal) basis is their intermission being explained? Could you please provide further details?
- Has your country signed any agreements or treaties with the state of israel or other zionist organizations, which would effectively put holders of israeli identification papers beyond and above laws and international treaties? Could you please provide me with a copy of any such agreement, law or treaty which your country may have engaged in?
- In relation to the resistance of the authorities of your country against extraditing him to either Germany or Dubai, what has also been commented about in the media, is this due to Israeli (and US) meddling, or strictly due to legalities? Could you please provide more details?
- Will the outcome of this case be decided in a sovereign fashion by Polish authorities, or will it be decided in Tel Aviv or Washington and handed down to Polish authorities for implementation?
- Have your authorities held a press conference or released media statements concerning the capture of this presumed terrorist? If not, why not? Could you please provide me with or direct me to any press release which you may have made?
- From the point of view of Polish authorities, is it more important to be seen as a state respectful of national laws and international laws and treaties, or to have friendly relationships with states which are universally known as scofflaws?
- If this individual was an Arab or Muslim, would he have been labeled a "terrorist" by your authorities, or treated different from how the captured individual is currently being treated? Would such a different treatment have a legal basis which you could point out?
- Could you supply a picture of the captured individual for publication?

I will wait 2 days for your answer, as I plan to publish my article on Thursday 17; I will publish any information which you provide me about this issue.

If you chose to not answer, I will publish this catalog of questions and explain that I received no answer from your respected office.

Thank you for your consideration.

Respectfully,

Kawther Salam
